

# LUCAS MOSELE

## UX/UI Designer & Developer

lucasmosele@gmail.com  
www.lmosele.com

A capable full-spectrum engineer passionate about clean interfaces and modern web technologies.

### EXPERIENCE

#### STARTUP INSTITUTE - INSTRUCTOR

May 2015 - Present

#### MAXWELL HEALTH - SOFTWARE ENGINEER (UI)

As a designer and developer in the engineering team I used React, PHP, and SCSS to build both our external marketing websites as well as multiple internal products as part of our HR administration software offerings. Duties ranged from UI/UX Design, Software Development, QA Engineering, and Scrum duties.

#### STARTUP INSTITUTE PROGRAM - UX TRACK

AUG 2014 - FEB 2015

#### TRELLIS - UX/UI DESIGNER

At Trellis I led the design and implementation of User Interface decisions for several large clients over the course of a several month long contract. As the sole designer I handled prototyping, visual design, user testing, and working alongside front end engineering teams for ecommerce applications.

OCT 2013 - JAN 2015

#### SALT - VISUAL/UX DESIGNER

As Visual/UX designer at SALT, I functioned as liaison between engineering and design as the sole owner of the brand and visual language guidelines. I also led multiple user tests, designed interfaces for our user dashboard, content platform, and homepage, and entirely redefined our brand's visual language.

#### SALT - INTERACTIVE DESIGN INTERNSHIP

#### KRASH - MARKETING INTERNSHIP

SEPT 2010 - PRESENT

#### FREELANCE - CONSULTING & DESIGN

Over the years I've worked and volunteered in multiple creative capacities including game design & animation, Interior design, graphic/branding design and marketing consulting. Notable clients include SBLY, Mien, SocialSeam, Trellis, Motion Revolution, and Krash.
